Call us today for your
personal cloud backup solution

- ✓ No setup costs
- ✓ No interruption to the business
- ✓ Local control of data backup
- ✓ Encryption for security
- ✓ Just \$95+GST per server per month
- ✓ No data cap
- ✓ No hidden costs
- ✓ Known costs for easier budgeting
- ✓ Peace of mind

MCN's Cloud Backup Solution gives you the best of both worlds because it is *local, affordable* and there is *no data cap*. With data usage continuing to increase, it has been hard for businesses to budget for their offsite backup costs. Now, with our fixed fee of **\$95.00 per server per month**, you have peace of mind.

Local cloud backup also offers peace of mind as you now have control over the total backup spectrum. You can be reassured that your encrypted information is being looked after beginning, middle and end of the information highway. The only thing you need is a local backup, which we can help with. *Here's how it works:*
